

TEACHING YOGA TO SENIORS 24-HOUR CERTIFICATE TRAINING

Mar 1-4, 2018 | 8:30am-4:30pm | Portland, OR

Seniors age 65 and older represent the fastest growing sector of the U.S. population and – like many Americans – are increasingly drawn to yoga. Yet there are few places where yoga teachers can learn practical strategies for adapting the practice to various needs, including older bodies, minds and spirits.

This pioneering 24-hour program, developed at Duke University and taught at Kripalu, combines the best of modern, evidence-based medicine with the ancient wisdom, experience and tradition of Yogic teachings.

Yoga instructors and health educators Carol Krucoff and Kimberly Carson will cover health conditions common to seniors, such as heart disease, arthritis and osteoporosis. Then in special hands-on training sessions you will learn how to appropriately modify postures for safe and effective work with older adults, with emphasis on individuals new to yoga. Teaching elderly students pain management, fall prevention, spirituality and aging will be covered, too.
